

TechnipFMC Announces Executive Leadership Change

January 12, 2021

LONDON & PARIS &

employees and other business counterparties;

- *unanticipated changes relating to competitive factors in our industry;*
- *our ability to timely deliver our backlog and its effect on our future sales, profitability, and our relationships with our customers;*
- *our ability to hire and retain key personnel;*
- *U.S. and international laws and regulations, including existing or future environmental or trade/tariff regulations, that may increase our costs, limit the demand for our products and services or restrict our operations;*
- *disruptions in the political, regulatory, economic and social conditions of the countries in which we conduct business; and*
- *downgrade in the ratings of our debt could restrict our ability to access the debt capital markets.*

We caution you not to place undue reliance on any forward-looking statements, which speak only as of the date hereof. We undertake no obligation to publicly update or revise any of our forward-looking statements after the date they are made, whether as a result of new information, future events or otherwise, except to the extent required by law.

About TechnipFMC

TechnipFMC is a global leader in the energy industry, delivering projects, products, technologies and services. With our proprietary technologies and production systems, integrated expertise, and comprehensive solutions, we are transforming our customers' project economics.

Organized in three business segments —Subsea, Surface Technologies and Technip Energies — we are uniquely positioned to deliver greater efficiency across project lifecycles from concept to project delivery and beyond. Through innovative technologies and improved efficiencies, our offering unlocks new possibilities for our customers in developing their energy resources and in their positioning to meet the energy transition challenge.

Each of our approximately 36,000 employees is driven by a steady commitment to clients and a culture of project execution, purposeful innovation,
