## TechnipFMC Awarded Significant Contract by TotalEnergies EP Angola for Gassol Life Extension (RIFE) Project

### NEWCASTLE & HOUSTON

TechnipFMC is pleased to announce that it has been awarded the associated hardware for the first subsea life extension project by TotalEnergies EP Angola and its E&P partners in West Africa.

The contract covers the engineering, procurement, and supply of flowlines and connectors for the Gassol Life Extension project (RIFE) offshore Angola. The flexible pipes will extend the life of the Gassol field by bypassing the

with our long-term clients and partners by continually delivering for them. We are delighted that TotalEnergies EP Angola is showing continued confidence in our technologies and integration capabilities.
